

Silicon Pendants

– Antibacterial Silicon Pendants

We have a large range of silicon pendants for use in nursing homes, hospitals, aged care facilities, medical centres and alike. The silicon pendants are typically two metres in length, have a pillow clip attached, jack plug right angled or straight, braille on the button, colour coded, ergonomic design, low pressure activation, easy to use and are easy to clean. All our silicon pendants can be used with leading brands of nurse call systems.
