

*PACTechnika has the  
right solution for any  
facility with CarePlus™*

**CarePlus™**  
Nurse Call

# PACTechnika + CarePlus™

PacTechnika and CarePlus™ make the perfect partnership with superior knowledge, understanding and abilities regarding the technology needed for any facility in the healthcare industry. Ideal for super-clinics, aged care, acute care, mental health facilities, and drug and alcohol units, CarePlus™ Nurse Call ensures improved compatibility, efficiency, functionality and intelligence. PacTechnika will find the right solution for any facility within the CarePlus™ Technology suite, designing the right service with outstanding support and evaluation.

## Why PACTechnika?

PACTechnika offers over 24-years extensive experience in delivering specialist IT and Health Information Technology solutions to hospitality, healthcare, CCTV and security industries. Advanced solutions are tailored for long-term requirements and budgets, with expert and ongoing customer support provided. PacTechnika offers superior design, programming, commissioning and installation of expert systems.

## Why CarePlus™?

CarePlus™ is a leading care management IP Nurse Call system utilising innovative technology to address dynamic requirements modern healthcare clinics demand. Launched in 2008, CarePlus™ has been installed in over 1,500 locations worldwide to offer improved performance and high acuity workflow in all types of healthcare facilities. The CarePlus™ Technology Suite has joined with PacTechnika to offer a superior strategic collaboration.

## Nurse Call

Trusted IP Nurse Call solutions are provided in wired or wireless options. CarePlus™ Nurse Call is ideal for super-clinics, aged care facilities, mental health facilities, acute care facilities, drug and alcohol units, and dementia units, with cost-effective installation provided through PacTechnika. Robust technology and equipment unite people, process and technology with accurate and traceable call initiation per person, per location.

## Wired

- Connects with any IP Network.
- Plug and play installation.
- Built-in infection control.
- 5 Priorities per call point.
- Forward-thinking communication.
- Mobile Connectivity
- Compatible with CarePlus™ Hospital and CarePlus™ Senior.

## Wireless

- Broad access leveraged through LPWAN (Low Power Wireless Area Network).
- RF 920 MHz in the medical and scientific band.
- Remote maintenance.
- Increased battery life.
- Guaranteed communication integrity.
- Easy integration.
- Compatible with wireless for CarePlus™ Hospital and CarePlus™ Senior.

## RTLS

- Options available: [Mobile Staff Duress](#), [Asset Tracking](#), Mobile Resident Call.
- Advanced clinical-grade technology identifies and tracks the location of assets and/or people in real-time with 100% room accuracy.
- Install stand-alone or Nurse Call Package: operates with legacy equipment.
- Safeguards people, technology & productivity.
